Description

HMD-640 is an addition and very useful tool, in situations when the Operator has to be covert/undetected. HMD-640 is a self contained 3V battery operated device, can be used in conjunction with vast variety of Thermal Imaging Observation, Weapon Mountable Devices, or any optical electronic observation devices which have analogue Video-Output. HMD-640 can be used as Hand Held, pocket size mini monocular or to be attached to various Head Gears/Helmet Mounts. We may supply unit with optional fully adjustable, padded Head Gear or Helmet Mount which allow the unit to be flipped-up or quickly detached from the mask.

HMD-640 Can Be Used With

DSQ-20, TIB-5, TIG-7, TIM-14, TIM-28 and TWS-37
