Telecase

Video Receiver with Display and Remote Control

Features

- 10.4" Sunlight Readable LCD
- Ruggedised
- Lightweight
- Integrated Battery
- Video Receiver and Telemetry Transmitter Built-in
- Multi-function Control
- Joystick Control
- Auxiliary AV Input and Output

Description

The TeleCase is an "all-in-one" waterproof, rugged unit which incorporates a Video Receiver, Telemetry Transmitter, TFT colour monitor, camera telemetry controls and a rechargeable battery pack. The TeleCase can operate either as a wired or a wireless unit.

The unit provides all the functions required to control a remote camera system including variable speed joystick control, programming and playback of up to 8 presets plus a programmable tour function. Camera controls include zoom and focus, auxiliary camera functions.

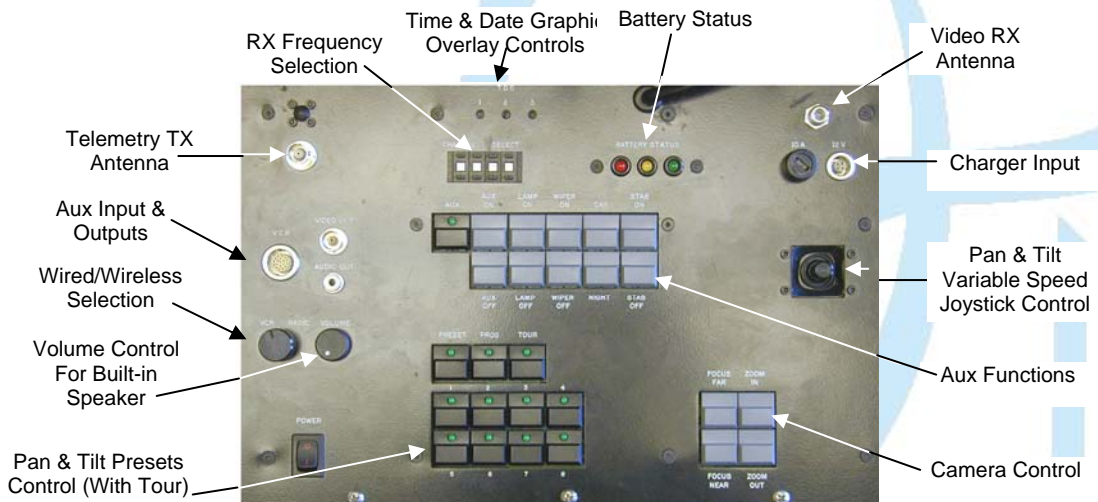

Applications

The TeleCase is ideally suited to the MiniMavis or Hi-spy remote control systems, but is equally compatible with any of the Britannia 2000 series long range cameras.

Options

- Colour
- Analogue or COFDM Wireless Link
- VCR Interface
- Choice of Telemetry and Video Transmission frequency bands.
- Time Date Generator
